AdjuTec[®] Last Shot[®] Oleum

High surfactant oil concentrate
Water conditioning agent
Deposition aid

PCT | Sunrise[®] AdjuTec[®] LastShot[®] Oleum is a high surfactant, methylated soy oil concentrate formulated with water conditioning and buffer agents.

LastShot Oleum is a multi-functional, high-efficacy adjuvant that helps activate herbicides for better performance against tough-to-control weeds, including later season weeds. Its unique formulation includes tallow amine which acts as an emulsifier and surfactant to help herbicides spread over the leaf for better absorption.

LastShot Oleum contains deposition aids that minimize off-site spray droplets, and improve canopy penetration and plant coverage.

LastShot Oleum contains a highly refined soybean oil that improves the performance and handling characteristics versus traditional high surfactant methylated seed oil formulations.

Advantages of LastShot Oleum:

- ↳ High quality concentration of emulsifiers and methylated seed oil.
- ↳ Flexible across a broad range of herbicides.
- ↳ Made with highly refined soybean oil for enhanced performance, stability and mixing.

Usage Rate & Application Directions:

- ↳ Use at 2-4 qt/100 gal with herbicides that can utilize or require an MSO adjuvant.
- ↳ Mixing and Compatibility:
 - Compatible with most tank mix partners and fertilizers.

Package Size:

- ↳ 2 x 2.5 gal
- ↳ 275 gal
