Nonionic Surfactant / Water Conditioner / Deposition Aid

GENERAL INFORMATION

AdjuTec® Last Shot meets the surfactant level requirements of most active ingredient labels in the industry that require or recommend the use of a nonionic surfactant (NIS).

AdjuTec™ Last Shot is a superior deposition aid and significantly improves uniform coverage, adhesion and penetration of the active ingredient through waxy or weather hardened cuticles.

AdjuTec™ Last Shot is formulated with an AMS-FREE water conditioner which helps to prevent the loss of active ingredient efficacy that can occur when the mixing water is mineral saturated or of unknown quality.

Recommended for use with a broad range of crops and non-crops when tank mixing active ingredients like glyphosate, 2,4-D and dicamba. A defoamer is included for easier mixing.

DIRECTIONS FOR USE

Follow the instructions on the most restrictive active ingredient label.

Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

Caution should be used when applying this or any other product on crops during hot, dry conditions.

Though phytotoxicity has been evaluated, care should be taken by conducting a jar test or testing this product on sensitive plants before full application is performed.

Order of addition

Prior to mixing, fill the spray tank with half of the carrier. Start the sprayer and check to make sure that all valves and gauges work and that there is adequate tank agitation.

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP) then Flowables (F, DF)
2. Agitate then add anti-foaming compounds or buffers.
3. Liquid and Soluble products
4. Emulsifiable concentrates (EC)
5. **AdjuTec™ Last Shot**

USE RATES

NOT FOR AQUATIC USE.

Herbicides: 1 to 3 quarts per 100 gallons

Principal Functioning Agents

Polyoxyethylene sorbitan monolaurate,	
polyoxyethylene monoundecyl ether, and	
polyoxyethylene tallow amine.....	80.0%
Constituents ineffective as an adjuvant.....	20.0%
TOTAL.....	100%

All ingredients are exempt from tolerance under 40 CFR 180.

DANGER KEEP OUT OF THE REACH OF CHILDREN

Refer To Safety Data Sheet SDS For Important Environmental, Safety, and Health Information

PRECAUTIONS

Causes skin irritation. Causes serious eye damage. Read label before use. Keep container tightly closed. Keep only in original container. Do not eat, drink or smoke when using this product. Avoid breathing vapors or spray. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, eye protection and face protection.

NET CONTENTS:

265 U.S. Gallons (1,003.13 L)

FIRST AID

Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing cautiously. If eye irritation persists: seek medical attention.

IF ON SKIN OR CLOTHING (or hair): Take off immediately all contaminated clothing. Rinse with water or shower. Wash with plenty of soap and water for several minutes. Call a poison center or physician. If skin irritation occurs: Get medical advice or attention.

IF SWALLOWED: Rinse mouth, Do NOT induce vomiting. Unless advised otherwise by a poison control center or doctor, if able. Do not give anything by mouth to an unconscious person. Call a poison center or physician if you feel unwell.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

STORAGE AND DISPOSAL

Storage: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

Disposal: Do not contaminate water, food or feed by disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local, regional, national and international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.

IMPORTANT WARRANTY DISCLAIMER AND NOTICE READ CAREFULLY BEFORE PURCHASE OR USE OF THIS PRODUCT

Conditions of Sale and Warranty Limitation: The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of PCT Sunrise or the seller. All such risks shall be assumed by the buyer. PCT Sunrise warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. PCT Sunrise makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall PCT Sunrise or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. PCT Sunrise and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of PCT Sunrise.
