

# BioBuild® BioZolve

*Beneficial microbes working for you.*

Available at these Sunrise Cooperative locations:

## **Attica Agronomy & Feed**

3568 St. Rt. 4  
Attica, OH 44807  
**419-426-4343**

## **Ballville Agronomy & Feed**

703 South St. Rt. 53  
Fremont, OH 43420  
**419-334-8931**

## **Botkins Grain & Agronomy Hub**

400 W. Walnut St.  
Botkins, OH 45306  
**937-693-2043**

## **Clarksfield Grain & Feed**

1981 Fitchville River Rd.  
Wakeman, OH 44889  
**419-929-1568**

## **Crestline Agronomy**

3000 W. Bucyrus St.  
Crestline, OH 44827  
**419-683-7340**

## **Kettlersville Energy**

8977 St. Rt. 274  
Kettlersville, OH 45336  
**419-628-2505**

## **Lancaster Agronomy**

2045 Cincinnati-Zanesville Rd SW  
P.O. Box 727  
Lancaster, OH 43130  
**740-653-2161**

## **London Energy**

254 West High St.  
London, OH 43140  
**740-852-2062**

## **Minster Grain & Feed**

292 W. Fourth St.  
P.O. Box 100  
Minster, OH 45865  
**419-628-2367**

## **New Bremen Feed**

435 S. Herman St.  
New Bremen, OH 45869  
**419-629-2338**

## **Norwalk Agronomy**

3130 Greenwich-Milan T.L. Road N.  
Norwalk, OH 44857  
**419-668-8115**

## **Norwalk Energy**

82 Townsend Ave.  
Norwalk, OH 44857  
**419-668-3955**

## **Osgood Agronomy & Grain**

17 E. Main St.  
P.O. Box 129  
Osgood, OH 45351  
**419-582-3502**

## **South Charleston Seed Hub**

11888 State Rt. 41  
South Charleston, OH 45368  
**937-462-7411**

## **Springfield Energy**

821 N. Belmont Ave.  
Springfield, OH 45503  
**419-739-4662**

## **Starbuck Agronomy**

310 Starbuck Rd.  
Wilmington, OH 45177  
**937-382-7555**

## **St. Anthony Feed**

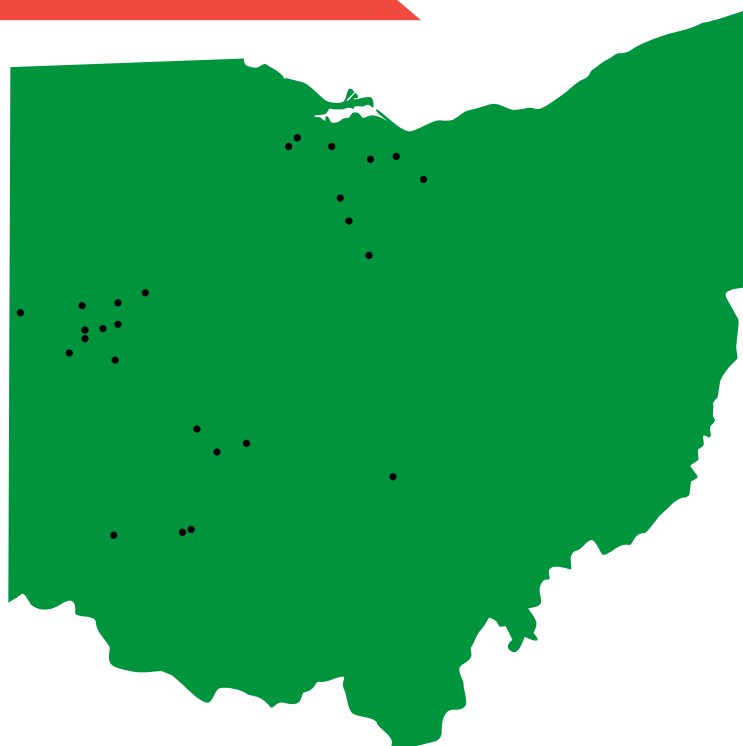

5458 St. Rt. 49  
Fort Recovery, OH 45846  
**419-942-1148**

## **Uniopolis Agronomy & Grain**

301 E. Ohio St.  
Uniopolis, OH 45888  
**419-568-2467**

## **Wilmington Energy**

1425 Rombach Rd.  
Wilmington, OH 45177  
**937-382-1633**

# BioBuild® BioZolve

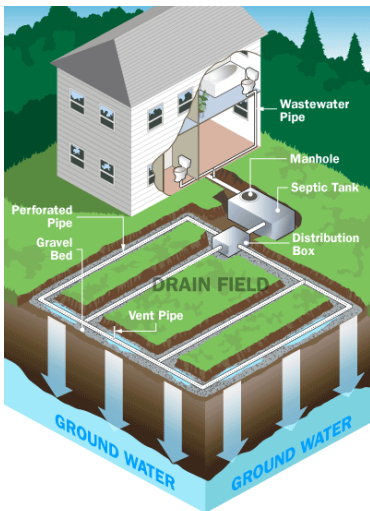

BioBuild® BioZolve is a blend of over two dozen “beneficial” strains of microorganisms with an affinity for organic solids. BioZolve is 100% safe and natural. It is a blend of live bacteria inoculant with no added chemicals, enzymes or surfactants. BioZolve’s beneficial microbes work to dissolve organic solids in multiple environments.

Below are the benefits BioZolve can provide for Septic Systems, Ponds/Lakes and Grease Trap Systems.

## Septic Systems

- Organic waste reduction
- Liquifies fats, oils and grease
- Degrades starches, proteins and cellulose
- Helps to minimize the need for frequent pump-outs
- Controls odor; hydrogen sulfide reduction
- Dose:
  - 1 quart every 3 months\*
  - *\*If using bleach, dosing needs to be increased*

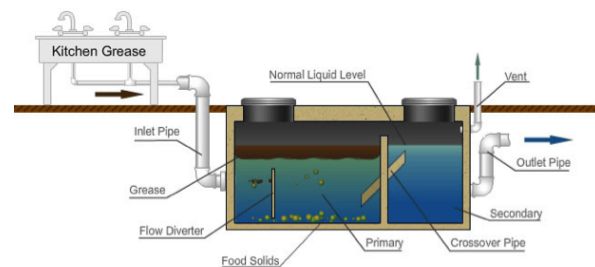

## Ponds/Lakes

- Dissolves organic sediment
- Reduces muck
- Reduces sludge build-up from organic decay
- Reduces noxious odors caused by dead algae, fish fecal matter and urine
- Improves dissolved oxygen levels
- Dose:
  - 2-4 quarts/acre ft initially; then 1-2 quarts/acre ft monthly
  - 1 acre ft = 1 acre of pond area, 1 foot deep
  - For example: a 1 acre pond 6 feet deep = 6 acre ft

## Grease Trap Systems

- Odor reduction
- Degrades grease, proteins and starches (breaks down and digests)
- Helps to minimize the need for frequent pump-outs
- Helps to improve effluent discharge quality
- Dose:
  - Under sink trap – 1 quart bi-weekly\*
  - 500 gallon exterior grease trap – ½ gal/month\*
  - 1,000 gallon exterior grease trap – 1 gal/month\*
  - *\*If using bleach, dosing needs to be increased*

*For best results use within 6 months of purchase.*

***Let these beneficial microbes do the work for you.***
