GENERAL INFORMATION

PCT | Sunrise FolrFeed® Veggie Foliar is a liquid foliar fertilizer with nitrogen, phosphorus, potassium, magnesium, boron, manganese, and zinc. These nutrients boost plant chlorophyll and photosynthesis, flower induction and fruit set, and sugar movement to fruit. Plant growth regulators may be added to FolrFeed® Veggie Foliar to promote root development and reduce root die-back and sugar competition between fruit. Monopotassium phosphate and phosphites in Veggie Foliar support the production of defense proteins that defend plants against common leaf pathogens. Micronutrients are EDTA-chelated for maximum protection against tie-up and incompatibility with other tank ingredients (herbicides, insecticides, etc.)
