## GENERAL INFORMATION

PCT | Sunrise NutraBurst™ SuperBlue is a lower-salt liquid nitrogen fertilizer for general use, including starting and topdressing crops. NutraBurst™ SuperBlue is 100% urea-N based; all of this nitrogen may convert to the more-stable ammonium form upon proper incorporation into soil. NutraBurst™ SuperBlue contains sulfur, which is key in nitrogen metabolism, including the activity of nitrate reductase and production of the sulfur-rich amino acids cysteine and methionine.

## HAZARD STATEMENTS:

Causes eye irritation. May be harmful if swallowed.

## PRECAUTIONARY STATEMENTS:

Wash hands, face, and other affected areas thoroughly after handling. Wear protective gloves/clothing/eye and face protection. Avoid release into the environment. Dispose of contents/containers in accordance with local/state/Federal laws and regulations.

IF IN EYES rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If eye irritation persists get medication advice/attention. IF SWALLOWED call a POISON CENTER/doctor if you feel unwell. Rinse mouth.

## HANDLING AND STORAGE

NutraBurst™ SuperBlue is a mildly corrosive liquid fertilizer and should be handled and used in accordance with state, local and federal regulations where applicable. Materials and methods of construction selected for storage and handling should be those recommended by qualified manufacturers, associations or recognized testing laboratories. Type 304 or 316 stainless steel, polyolefins, fiberglass, reinforced plastics, polyvinyl chloride, polypropylene, polyethylene-applied coatings and rubber linings are generally suitable for storage and handling of mixed liquids. Aluminum, brass, copper, zinc and many alloys, especially those of copper base, are unsuitable for use in storing and handling mixed liquid fertilizers and must be avoided. Rinse and flush thoroughly before retiring equipment for the season.
